Robert Slawsky METCA 145

HAPPY NEW YEAR

## TRADE TOKEN TOPICS

Published and mailed on the first of each month to all members of METCA (Merchant Token Collectors Association.) Dues, \$5.00 per calendar year. Every METCA member is entitled to a free four line ad in each issue provided it is different each time. Display advertising rates: (Per issue) full page, \$10.00; half page, \$6.00; quarter page, \$3.00, with a 20% discount for ads placed for 3 issues or more. Prices quoted are for a maximum of 100 words; add 5¢ per word on copy exceeding 100 words. For mail bid sales, send clear typewritten copy. Deadline for all copy is the 20th of each month preceding issue. Make all checks and money orders payable to Merchant Token Collectors Association. Mail address: P.O. Box 176 Richmond Beach, Washington, 98160. The publisher does not accept responsibility for any correspondence mailed to any address other than this one.

Ray and Rita Nadreau, Publisher

### FIESTA CONCESSION TOKEN SANTA MONICA CALIFORNIA

By Stephen Alpert, METCA #66

Obverse: FIESTA CONCESSION TOKEN

Reverse: Blank. Scrollwork background on both sides.

20 mm, Brass.

The above token is presently in use at an amusement booth on the pier in Santa Monica, California. The tokens are purchased for 10¢ each, and used in a tossing game. A large table in the booth is piled high with plates, dishes, cups, bowls, glasses, ash trays, etc. The object of the game is to toss the tokens onto or into one of the objects on the table; whatever the token lands in, you win. Tokens that miss fall on the floor within the booth. The largest prize, a lamp, is won by tossing a token into one of two milk bottles on revolving stages. Fiesta Concession Corporation is listed in the local phone books at 322 Santa Monica Pier, the address of the booth.

Another similar game booth on the pier uses 'tokens' which are to be tossed onto widely-spaced plates, to win coupons which are redeemable for prizes. The tokens, which cost 5¢ each, are actually blank holed metal washers. In other amusement areas, such as Long Beach, California, similar game booths have you toss dimes, not tokens, onto the plates.

## WHEN IS A TOKEN A TOKEN?

By Kendall Ballard, METCA #14

Mr. Gould's article in the December, 1974 issue of TRADE TOKEN TOPICS on 'When does a Maverick cease to be a Maverick?' is a question we have all asked at one time or another. Another question that we have all asked ourselves is 'When does an article become a token?' or 'What constitutes a token?' We have seen want lists with statements 'No modern tokens accepted,' or 'No fibre or non-metal pieces please' or statements which give a person the idea that if a piece is not brass, aluminum, or white metal, it is just plain junk. Let's also insert here the two little words, 'Good for.' These appear in many forms throughout all token media thus again proving that anything that is not a 'Good for' is also junk. Let's talk a little about each of these points.

First, 'No modern stuff.' So a diehard collector sticks to this rule and knocks everyone aside buying, trading, bidding for the ancient tokens and ignores anything that even looks new even if it is from a 1915 hoard of unused pieces. But wait! What about the towns that have sprung up since 1940? The only tokens available from these towns would be modern and town collecting is the IN thing in tokens. Even though you have 4,000 tokens you are not even in the same class of the collector who has only 237 tokens but has 2 more towns than you. Well, you don't take anything modern so you pass up the pieces that may be the only possible representation of these post-1940 cities.

Second, 'No non-metal stuff.' That's great, metal weighs more and lasts longer. Lasts longer? Then wouldn't that make a cardboard piece more rare and desirable because it has survived the forces of nature through the years? Let's see now, in my collection I have a cardboard token with a thin aluminum ring around the outside (See STA-8 in Schell's Catalogue of Idaho Tokens). I am told that this token is different than a cardboard item because it is enclosed with metal so this is a nice token. Well then what about my sample of the cardboard 'Good for 25¢ in trade at the Rockland Merc or Roy Cash Store', a drawing of which is shown below? This is just an old piece of cardboard and not even worth the holder to display it in. Sure, it might be the only token one ever finds that represents that little one-store town of Roy, Idaho and the last car serviced at the one gas pump was brand new long before 1940, but it isn't metal so one cannot count it. What about counting it as a new town? Sorry, it isn't metal, doesn't have a metal ring. Out of luck!

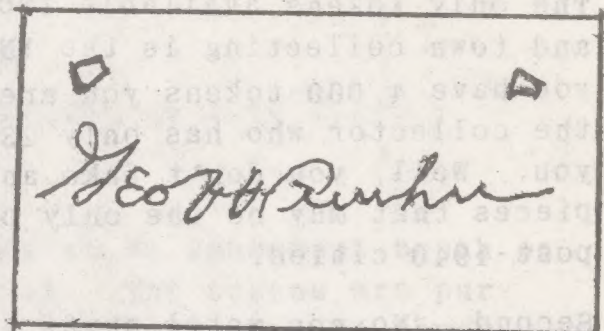

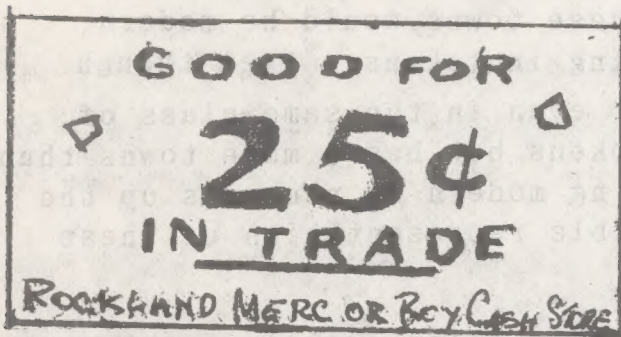

(Continued on next page.)

## WHEN IS A TOKEN A TOKEN? (cont'd.)

Third, 'Good for.' Let's again note here that to be accepted by the hobby, one must have lots and lots of towns represented in his collection so let's dig, dig, dig for tokens from every town we can find. Yeah, just last week I found a nice token from Paris, Idaho (rubbing shown below). Isn't she a beauty? No one else has ever found a piece from Paris. Gee, it's white metal and the size of a nickel and.... sorry, you can't count that one. Strike Paris off your town list. That has to be a 'Good for' and your piece isn't. Better throw it away or get yourself in trouble. Oh shucks! Back to the road for another token hunt.

(Author's Note: I don't want to offend anyone and I know that the whole question is resolved in that any person is free to collect whatever he wants and it is solely his business. Everyone that I have ever traded with or asked questions of has been extremely nice. I just would like to see the other items that seem to be shunned by me as well as others be preserved in some way for their historical value. K.B.)

Rockland Merc or Roy Cash Store (Note two trapezoid punchouts on token.)

I also need descriptions, rubbings and related paper items pertaining to logging & lumbering, or related wood products. I have lumber and merchant tokens to trade from several states

I'LL TRY TO IDENTIFY YOUR LUMBER MAVERICK-WRITE

I also collect tokens and medals from Oregon

TERRY N. TRANTOW, P.O. BOX 524, ELLENSBURG, WA 98926

# NOTICE:

HAPPY NEW YEAR TO ALL OF YOU

During this Christmas season, I sat by the fire, watched TV and let METCA slide. Therefore I will have to make a few notes and change format to meet my schedule:

- (A) Duane Feisel sent me a good 12 page listing of B.P.O.E. (Elks) Lodges which can be used by members to help identify Elk Club mavericks. I will print and send to you this listing over a period of three issues. Four pages (cover, pages 2, 11 & 12) are with this month's T.T.T. Instructions for collating and assembling the complete listing are on the back of this notice.
- (B) I am printing Duane Feisel's maverick comments inside this notice. He has detailed information on this listing plus notes on his Bradstreet Directory and Lew Ferguson's forthcoming Iowa maverick list, which we will print shortly.

RAY MADREAL

= METCA MAVERICKS COMMENTS =  
by Duane H. Feisel

In order that we can bring you a very special METCA MAVERICKS section this time, my comments are going into the main section rather than with the maverick section. Before I tell you about this special, let me go into another matter.

Last month you received information about the availability of reprinted pages from the 1914 Bradstreet's directory I have. The information for ordering was submitted for the November issue, but it was apparently delayed in the mails and got to Ray too late for that issue. So, he held it over to December, but I neglected to change the deadline for the orders! In fact, the December 1 deadline was the day that the METCA publications were mailed to you. Despite that, the response has been tremendous and almost one hundred collectors have ordered reprints of specific states, many of them ordering pages for several states. I have sent out invoices for the charges involved, and when the actual reprinting is done in early January, only those orders which have been paid in full will be printed, and there will be no further printings.

However, because of the confusion with the closing date, I will still accept orders up to one week after this issue is mailed. That means a new closing date of about January 8, 1975. On January 9, the order will be placed with the printers. If you want to order now, you will have to send payment with your order. Since orders have been received for each of the states and provinces available, you can figure at 10¢ per page, plus \$2.00 for each special binding desired, plus a flat 50¢ per order for mailing expense. It is easier for me if you use the order blank provided last month, or a copy of it. So, if you want any of the reprints, you can still get them,

Now for the maverick special! Many of us have encountered tokens for Elks lodges which carry the number of the lodge, but no location. My own experience has been that I can usually get an attribution for such a token by calling the local Elks club, but that is an imposition on them. Now I have been able to obtain a listing of the various Elks lodges as of 1970, and this listing is reproduced as a special 12 page issue of METCA MAVERICKS. Although this should prove to be a very useful listing for attribution of maverick tokens, another numerical listing will complete the usefulness of this information. I have already started compiling that listing, and if I can find to type it up we will have it available in the near future. Now, who can dig up similar information for Moose and Eagles clubs? Or other fraternal organizations? By the way, for those of you who are not sure of the meaning of the B.P.O.E. abbreviation, it stands for Benevolent and Protective Order of Elks.

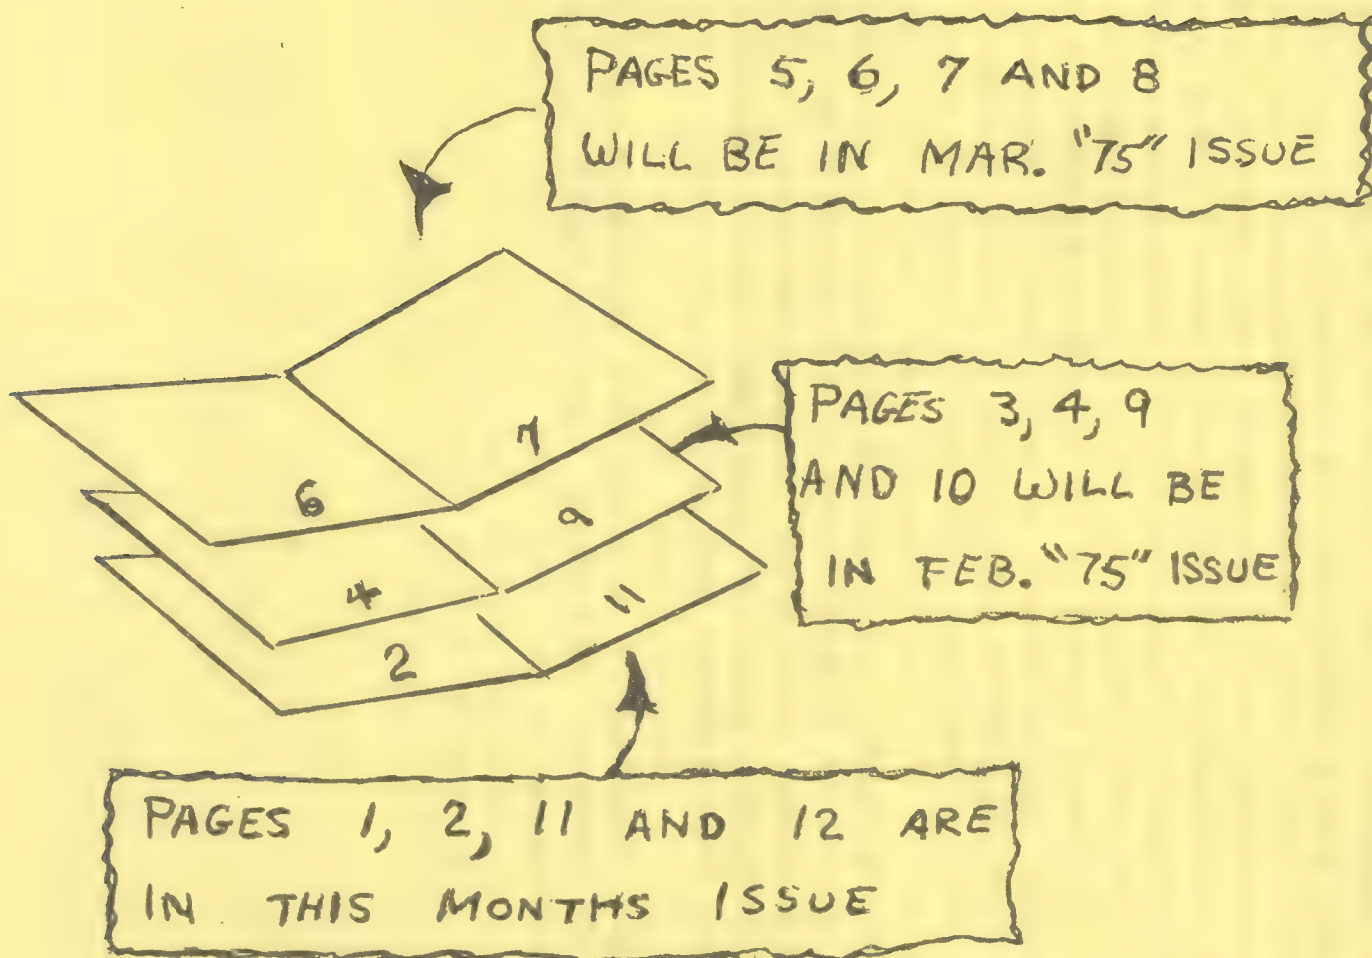

Lew Ferguson has kindly furnished a complete alphabetical listing of attributed Iowa maverick tokens, and that listing will be coming along in the near future as well.

\* \* \* \* \*

# ASSEMBLY DRAWING FOR COLLATING YOUR B.P.O.E. LISTING.

## NOTE:

I WILL BE PRINTING EXTRA COPIES OF  
THIS LISTING. AFTER MARCH 1975,  
ANY METCA MEMBER CAN HAVE AN  
EXTRA SET BY SENDING SASE

# TRADE TOKEN TOPICS

MONTHLY PUBLICATION FOR TRADE TOKEN COLLECTORS

MERCHANT TOKEN

COLLECTORS ASSOCIATION

COVER BY EDWARD SAUNDERS, METCA 136 (See page 15)

## TRADE TOKEN TOPICS

Published and mailed on the first of each month to all members of METCA (Merchant Token Collectors Association.) Dues, \$5.00 per calendar year. Every METCA member is entitled to a free four line ad in each issue provided it is different each time. Display advertising rates: (Per issue) full page, \$10.00; half page, \$6.00; quarter page, \$3.00, with a 20% discount for ads placed for 3 issues or more. Prices quoted are for a maximum of 100 words; add 5¢ per word on copy exceeding 100 words. For mail bid sales, send clear typewritten copy. Deadline for all copy is the 20th of each month preceding issue. Make all checks and money orders payable to Merchant Token Collectors Association. Mail address: P.O. Box 176 Richmond Beach, Washington, 98160. The publisher does not accept responsibility for any correspondence mailed to any address other than this one.

Ray and Rita Nadreau, Publisher

## NOTICE:

ON SATURDAY OF JAN 11 OF THIS YEAR, SOMETIME BETWEEN THE HOURS OF MIDNIGHT AND 5 A.M OUR LOCAL RICHMOND BEACH POSTOFFICE WAS VANDALIZED. OUR BOX 176 WAS ONE OF THE BOXES BROKEN INTO WITH MAIL STOLEN FROM IT. IF ANY OF OUR MEMBERS IS MISSING AN AD OR A MEMBERSHIP, PLEASE NOTIFY US.

RAY & RITA NADREAU

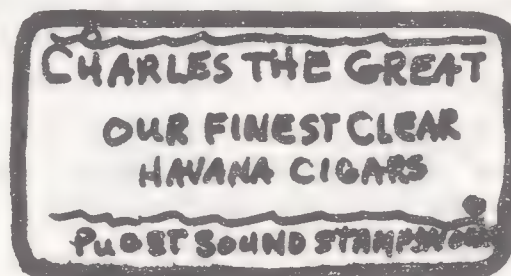

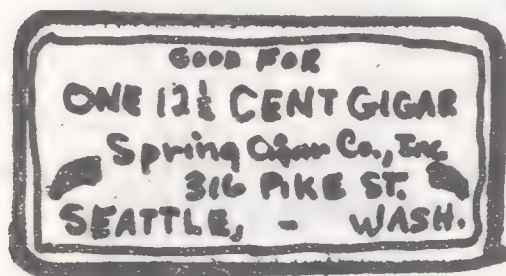

## WESTERN TOKEN MAKERS

By Edward Saunders, METCA #136

The drawing on the cover of this month's TRADE TOKEN TOPICS is a copy of a business card put out by an early San Francisco token maker. The lettering is dark purple and has a violet shade around the letters. The card is tinted a light purple and is quite attractive with a white center seal of the California state seal. On the reverse there is more detail as to the nature of the manufacturer's business.

The drawing just below is of a yellow celluloid token. It is used basically because it has the die maker's name on the reverse side of the chit. It was made by the Puget Sound Stamp Works. I don't recall seeing other pieces from this maker, but there are probably some. I only collect one of a town in the way of Washington tokens, so I am not as familiar with their tokens.

Just under the drawing of the business card on the cover are tokens from two Utah token makers.. The Mormon Temple, pictured on one of the tokens, is found on other Utah tokens. It seems to be used more often by, and is a distinct trademark of, the Salt Lake Stamp Company. Just how many tokens actually bear the die maker's name, I have no way of knowing. To my knowledge they seem to be a bit hard to get. The other token from Utah is from the Intermountain Stamp Works. I got this one at the First Token Jamboree in California a little over a year ago. It was a new die maker to me, never having heard of the company. I am kind of a nut for the unusual tokens and this one attracted my attention. Maybe some of you Utah collectors can shed a little more light on the subject. This is what really makes token collecting enjoyable, sharing one's knowledge and interests.

(Continued next page)

## WESTERN TOKEN MAKERS (cont'd.)

One more token that I was glad to get is from the Pacific Coast Stamp Works, shown on the cover. As far as I know this is the only token bearing this die maker's name. There are quite a few tokens from Portland, Oregon that are from this die maker, but none of them bear the name of the company in any form. In my Oregon collection I have several nice pieces with roses and other pieces similar to this one from the Portland token manufacturer, yet it seems that this is one of those companies that did not put their name on their tokens. The piece shown is actually a store card for the company itself, otherwise there may never have been a way to identify other tokens from the same company.

The J. C. Irvine Company of San Francisco, also shown on the cover, was one of those manufacturers that believed in advertising. This die maker put his name on a good deal of the tokens that he made. They have a distinct style and can often be spotted by the fancy reverses used entirely by this maker itself. There are at least a half dozen tokens made in the form of store cards for the business. The company seems to have merged with Jachens at one time. This is probably the same Jachens that is on the business card, being in business with Wirth at this time. Many of the early tokens of California are those that bear the earmarks of Irvine of San Francisco.

The above token made by L. H. Moise is one of his nicer store cards. Moise made many of the early San Francisco Telephone tokens. He manufactured very nice tokens which are a bit older than some of the other San Francisco manufacturers. The token next to Irvine's on the cover is one of many of the smaller tokens. It has a blank reverse as does the J. C. Irvine token. The last rubbing on the cover is another example of L. H. Moise's own advertising tokens. The other three pieces are from the combined Moise Klinkner Company. Both companies had many tokens in Arizona, California and Nevada. There are a few in Oregon and Washington as well. Many of the Idaho and Utah tokens were made by the Salt Lake Stamp Company.

## WESTERN TOKEN MAKERS (cont'd.)

Now let's look at a few of the Western tokens that are identified by their reverses. The Salt Lake Stamp Company put its name on quite a few of its tokens as well as having its own design as for example the Mormon Temple piece. Let's note the V ¢ piece. This is one put out by Wirth & Jachens, the same company that made the business card shown on the cover, and it is probably a reverse unique to that company. The squared 5 piece is one of Irvine's well known reverses and is a distinct trademark of that company. There are others just as unique to this company as this token and the same could be said about any of these companies. The nice drink token is a good example of another San Francisco maker not yet discussed. This token is from the Patick Company, it too has its own style and is quite well known to our western token collectors. There are other companies not mentioned since some of them have no real identity. One from Sacramento is known only by his style, and has his name on none of his tokens. Another token maker from San Jose, California puts a Q. C. on his tokens. There are many different manufacturers; names like Jacob Strahle & Company, Bernard, and Bachrach and Company,

all of San Francisco, many of these having only a few tokens bearing their names, yet they could have been discussed in greater detail. There are others that are worth mentioning: Osborne Register Company of Cincinnati, Ohio, A. E. Schmidt Company of St. Louis, Missouri, Northwest Stamp Works of St. Paul, Minnesota, and Whitehead-Hoag of New Jersey, all of whom produced a few tokens and badges in the western states. One Portland manufacturer is the Irwin-Hudson Company. I have never seen this name on tokens, yet there are many made by the company. Badges often have the name of this company. It is a company with a unique style.

(Continued next page)

## WESTERN TOKEN MAKERS (Cont'd.)

The last two companies we wish to discuss are the Brunswick-Balke Collender Company and the St. Germain Billiard Company of San Francisco. The first is a company that made tokens in Chicago and other cities, then moved to the West in the late 1870's. The style of the reverses is often an indication of how old the tokens are. Many of them are of the early west and date in the 1880's. The billiard table is pictured on many of the tokens from this company. They are very much liked by collectors and are often quite unusual. There are other styles without the table but this seems to be their trademark. Sometimes only pool sticks and balls are found on tokens of this company and related companies. The company had various names over the years and thus the pictures were often somewhat different in design. The St. Germain Billiard Company has a very nice style of tokens. The reverse is found on many of the early California saloon tokens as well as on other types of tokens. They are often quite fancy with unique little ornaments on them. These companies are only two of the many that have supplied the West with an abundance of unusual and interesting tokens. There is indeed a nice variety among western tokens and it gives every collector a chance to have a unique collection.

# 'GOOD FOR' TOKENS TELL A STORY.

By Phil Klablel, METCA #396

Looking over my 'odd-ball' good for tokens, one could almost write a story if he placed the tokens in proper sequence, like so:

John listened to a  on his Coinola piano while

taking a  Later he made a  to Mary,

and asked her if she wanted to go to a  She de-

clined but would rather go on a picnic. She had a 

and a  and if he would pick up a 

 and a , she would ask her brother,

who operates the  give them a  to the

park.

## NOTES ON JAMBOREE EAST 1974

by Duane H. Feisel

Carrying the National Token, Medal and Exonumia Collectors Jamboree concept eastward, JAMBOREE EAST 1974 was held in Pittsburgh, Pennsylvania, on October 4-6, 1974, at the Hotel Webster Hall.

I got an early jump on things when I flew out from California on Monday of that week. When I arrived in Pittsburgh, I did not feel very well. Thinking that it was a case of fatigue from flying and not enough food, I promptly visited a favorite Jewish restaurant for a large, delicious meal. Then while watching the Monday night football game on television, I became more and more uncomfortable until the flu bug really hit me in the middle of the night. So, for the entire time I was in Pittsburgh, I was a bit under the weather. The bug was going around as others were similarly affected.

On Tuesday evening I was invited to give a talk on tokens to the Western Pennsylvania Numismatic Society, a venerable organization of which I am a member; WPNS has to be one of the oldest coin clubs in the country having been founded in 1878! On Wednesday evening, I hosted a dinner meeting of the Sphinx Society, another specialized numismatic organization limited to twelve local members!

Starting Thursday morning, I worked with the Hotel personnel in getting the bourse room arranged. Some of the early birds began to show up by noon-time, and more and more of the bourse dealers came along as the afternoon got later. By 7:00 PM, business between bourse dealers was in full swing, and it continued until late in the evening. Even some collectors managed to find their way into the bourse room on Thursday evening, but enforcing the limit on dealings between bourse dealers only on Thursday night, I had to request the collectors to leave and wait until opening time on Friday.

Although the bourse room doors did not open until 10 AM on Friday morning, by 9:30 a sizeable group of collectors had assembled near the door. To facilitate prompt entry, registration started early, and at the 10 AM opening time, very active business began. As has been my experience now with three Jamborees, there was not very much walk-in traffic. Business came mainly from the many serious collectors who were there. The bourse dealers offering a wide variety of material included Dr. Herman Aqua, Luzerne, PA; Walter Caldwell, Fayetteville, WV; Wm. Crowl, Arlington, VA; Dick Crosby, Pittsburgh, PA; Paul Cunningham, Tecumseh, MI; Max Drainger, New York City; George & Doris Fuld, Baltimore, MD; Glenn Firestone, Hialeah, FL; Jon Harris, Coral Gables, FL; Rich Hartzog, Rockford, IL; Jim Hall, Arlington, VA; Larry Elman, Woodland Hills, CA; Gary Pipher, Johnson City, NY; Joe Levine, Alexandria, VA; Bill Ross, Pittsburgh, PA; Richard Rossa, Brooklyn, NY; Dave Schenkman, Indian Head, MD; Hank Spangenberg, Englewood, OH; Cliff Sutton, Monroeville, PA; Al Zaika, Bellmawr, NJ; although he did not get there personally, Paul Koppenhaver, Van Nuys, CA, had a table from which was distributed information on his auctions and exonumia offerings. Another dealer who had planned on attending, but was not able to make it, was Norm Boughton, Rochester, NY.

Many of the dealers mentioned to me how well they had done at the Jamboree, and I think that overall business was quite good. One satisfied dealer mentioned to me on Friday evening that he had had only eight sales all day, but that the minimum sale was over \$50!

Another local dealer was only able to be at the Jamboree for a couple of hours each on Saturday and Sunday because he had to "tend store" most of the time. Even at that, he told me that his sales for that limited time were greater than for any two day coin show he had ever worked!

The coal scrip collectors were there in force, and there was much activity in that field. Perhaps in even greater strength were the Civil War token collectors, and the action on better material was fast and furious. Each of these two groups held well-attended and active meetings on Saturday afternoon.

Because of the lack of display cases, I did not promote exhibits to any great degree. Still, there was a good representation of interesting material. Grant Schmalgemeir of Chicago, IL, brought in a number of frames of paper exonumia from the Century of Progress Exhibition held in Chicago in 1933-34. Grant brought along enough material that he was able to change a part of the display each day! Another fine display of rare material relating to the 1876 US Centennial celebration was placed by Hank Spangenberg; Hank had gotten extensive coverage in the issue of *COIN WORLD* which came out just before the Jamboree. An interesting display of items produced by Meyer & Wenthe, an old-time token manufacturer from Chicago, received a great deal of attention; the display panels carried examples of many rare, interesting and unusual tokens, medals, canine dog-tags, badges, etc. Finally, The Franklin Mint placed an impressive display of medals, plates, silver bars and other collectable material; representative Ed Quagliana also screened several of the Franklin Mint movies. Well done, interesting and educational, I don't know why these movies did not receive more viewing attention from collectors there.

Because space was not available on Saturday evening for the banquet, it was held on Friday evening instead. A typical Jamboree banquet, it featured good food, good fellowship and informality. The program for the evening consisted of the awarding of door prizes--each person there got some sort of exonumia gift! During the banquet, Don Miller, Indiana, PA, extended an invitation to come to Indiana, PA (located about sixty miles outside of Pittsburgh) for Jamboree East 1975. Mr. Miller, well known for his catalogue of store cards, described the facilities available there, and the extensive collections of Civil War cents and merchants store cards which could be placed on exhibit.

One other special exhibit at the Jamboree was the ever-popular Exonumia Library. There was always someone examining the material in that display, or using the books and catalogues for reference purposes. This display consists of exonumia publications (books, catalogues, club newsletters, etc.) donated by authors, publishers and clubs. Each Jamboree for which an item is donated, a description of the item including order information is put into a special folder made available to everyone. That item then becomes a permanent part of the Exonumia Library for display at every Jamboree. If the item duplicates something already in the Library by a previous donation, the duplicated item is used as a door prize at the banquet. There

CONTINUED ON PAGE 32

## NOTES ON JAMBOREE EAST (Continued)

seemed to be more interest than ever in the Exonumia Library display. I know I came away with several hundred dollars in book orders!

The late night bull sessions, always a part of a token and medal collectors gathering, were an important part of the week's activities. The Hotel had fixed me up with a suite--one room of which was almost big enough to stage the Jamboree! That served as one gathering spot, and I know that other rooms attracted collectors from several specialty areas.

Joe Levine, ably assisted by his charming wife Gail and his friend and compatriot Dave Schenkman, managed to run the most efficient floor auction that I have ever seen on Saturday evening. Working like a well-oiled machine, the three of them ran off 538 lots like clockwork. Considering the interest in the material offered, I was amazed that things were completed so early in the evening. Then on Sunday-AM, lots were ready to be picked up by those at the Jamboree. The auction was strong in Civil War cents, hard times tokens, politicals and inaugural medals. The highest highlight of the auction had to be the \$4600 bid on a 1905 Roosevelt inaugural medal--that against an estimate of \$3700-\$4500! "Good for" tokens were few and far between in the auction, but those that were included brought spirited floor bidding.

METCA was well represented at the Jamboree as I noted the following collectors there: Charles Littlefield, Ron Vore, Frank Beam, Dave Schenkman, Glenn Rome, Herm Aqua, Hal Dunn, Rich Rossa, Bob Slawsky, Paul Jensen, Paul Dillingham, Larry Elman, Ben Odesser, Walter Caldwell, R. R. Tippy, C. B. Yohe, George & Doris Fuld, Al Hoch (Quarterman Publications), Rich Hartzog, Paul Cunningham, Gay Lipscomb, Steve Tanenbaum, John Schillinglaw, and Jon Harris; there may have been others I missed. In going through this list, I see that I neglected to mention in the bourse dealers section the names of Gay Lipscomb, Fairfield, OH, and Paul Jensen, Ft. Thomas, KY; both of them manned active bourse tables.

Now that Jamboree East 1974 is history, work starts on the west coast version, Jamboree West 1975 to be held on April 4-6, 1975, at the Le Baron Hotel, San Jose, California. The Le Baron is well situated for those driving or those arriving by plane at the San Jose airport. The facilities at the Le Baron have to be among the best in California; there seemed to be universal satisfaction with that location in 1974. Bourse table applications will be ready soon, so inquire if you are interested. The cost is \$120 and includes two banquet tickets. Collector registration forms will be available also in the near future. Room rates are a bit higher in 1975 at the Le Baron, but special rates are available if reservations are made through me. Now is the time to start planning on coming. April in California just has to be one of the nicest times of the year out here, and the Jamboree should be bigger and better than ever. I hope to see you there!

# A Survey of American Trade Tokens

An anthology edited by

David E. Schenkman

This volume, sixth in the series *GLEANINGS FROM THE NUMISMATIST*, contains more than 125 articles covering a broad range of information about trade tokens and store cards. The subject listings include Indian and Post Trader Tokens, Early Store Cards, Trade Checks, Hard Rubber Tokens and Medals, Transportation Tokens, Fraternal Tokens, and Tokens and Medals Relating to Numismatics. Such authorities as F.G. Duffield, Edgar H. Adams, J.J. Curto, Waldo C. Moore, Farran Zerbe, and George and Melvin Fuld are among the many authors whose articles are presented in this 512-page hardbound volume.

A Price Guide by David E. Schenkman for approximately 1300 tokens, a large percentage of which are illustrated in the text, has been added along with his foreword and comments. Although all the articles were previously published over a 66-year period in *The Numismatist*, few collectors have access to the many issues from which they are extracted. Therefore, this comprehensive and organized anthology is a necessity for all token collectors.

Prices quoted are for a maximum of 100 words; add 5¢ per word on copy exceeding 100 words. For mail bid sales, send clear typewritten copy. Deadline for all copy is the 20th of each month preceding issue. Make all checks and money orders payable to Merchant Token Collectors Association. Mail address: P.O. Box 176 Richmond Beach, Washington, 98160. The publisher does not accept responsibility for any correspondence mailed to any address other than this one.

Ray and Rita Nadreau, Publisher

## PUBLISHERS NOTES

### TOKEN DISPLAYS

To the right is a letter from Eugene Morris METCA 512 who is interested in how collectors and clubs around the country make out with their displays at the coin shows. Since subscribers to METCA are mostly interested in promoting token collecting or tokens for their collections, it would be nice to hear how your displays have been doing at the shows and also if the displays have given leads to token sources.

### JAMBOREE WEST

Bary Bender and Clarence Hepner both of Seattle are going to San Jose with their pockets full of tokens to swap (I bet) I'll pick their minds for something on that when they return. I have asked Bary to lend a hand at chairing any METCA get together while he is there.

## THOSE WERE THE DAYS. . .

when soup was '6 plates for 10¢' as the Tricolor Soup token from Boston, Massachusetts advertises. (see front cover.)

# IOWA NUMISMATIC ASSOCIATION

INCORPORATED 1938

Forest City, Iowa  
March 12, 1975

M E T C A  
Richmond Beach, Wash.

Dear Ray:

I am a new member so am not sure of all your rules for printing, etc. Is it possible to get a small item printed in your next issue? I would like to promote more exhibiting by Token Collectors.

I have heard Token collectors say that it is generally believed that a Token Exhibit cannot win at a Coin Show. The Tokens may not win a "Best of Show" very often, but they can win a 1st, 2nd, or 3rd place trophy. Most Shows have a combined Medals & Tokens classification or a Specialized or Miscellaneous Class. I have exhibited at twelve Coin Shows the past few years. I got blanked once, but I did win one third, one second and nine First place Trophies.

I am President of the Iowa Numismatic Association. Our I N A State Show for 1975 will be held in Cedar Rapids, Iowa on October 4 & 5. This year for the first time, we will have a separate Class for Tokens. I would like to encourage Token collectors to get an exhibit ready and start exhibiting Tokens at their local & State Shows.

If we can't get more Token exhibits in Iowa then we have in the past, we will have to go back to a combined Tokens & Medals class, to save the cost of extra trophies.

A fellow Collector and METCA member has told me that Token collectors do exhibit in North Dakota, but very few do so in Iowa and South Dakota. How about other States? Do you know if Token collectors are exhibiting? Do they exhibit in your home State of Washington?

If you can spare a little space and print a notice on Token exhibiting, please re-word this as needed, and encourage our fellow Token Collectors and METCA members to start enjoying their collections more by exhibiting and letting other people enjoy their collection.

I enjoy your METCA bulletins and was happy to see that there are as many Token collectors that are members.

Respectfully Yours

*Eugene Morris*

# 512

PLAN TO ATTEND OUR ANNUAL CONVENTION EVERY FALL

## KENTUCKY HIGH WATER TOKEN

By Stanley L. Buckley, METCA #220

Among the interesting 'Good Fors' from this area is this old token from the Clifford House in Newport, Kentucky. Not only is it good for a 5¢ drink but it was put out as a souvenir of one of the floods that periodically strike these towns and cities along the Ohio River. It is also unique because it is dated 'Jan. 21 '07 10-A.M.' which is the month, day, year and even the exact time the river crested at 65.2 feet. Since January of 1937 when the river hit the record high of 79.9 feet, most of these towns have constructed flood walls to prevent the damage these floods caused. Flood stage here is 52 feet.

The building that was the Clifford House still stands but it has been converted into apartments. The street level part is now a tavern called the Dream Bar.

## GOOD FOR ONE BARREL OF WATER

By George Gould, METCA #22

Odd Good-Fors seem to be very scarce and no one knows what future pieces will turn up. The illustrated piece (CITY WATER WAGON) was probably used in some dusty southwestern town, where the enterprising individual would obtain full barrels at a nearby river or creek, and roll through town with the name of his product clearly emblazoned on the side of his buckboard. He no doubt had regular customers that he serviced and offered a discount in water or an extra token when someone bought a handful in advance. Now, a 'city' worthy of the title usually had a water system of some kind including a sewage system. I prefer to think our superintendent of the local water-works envisioned his town as a metropolis.

OBV: CITY/ WATER/  
WAGON

REV: GOOD FOR/ 1/  
BBL. / WATER

## MORE 'GOOD FOR' TOKENS

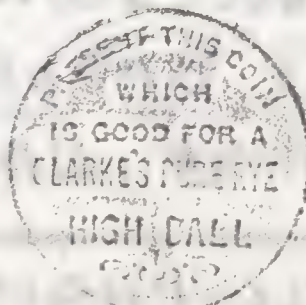

By Charles F. Robinson, METCA #82

In the February issue of TTT, Phil Klabel has a very interesting story to tell of odd 'good fors'. I have found that I have a new interest in these unusual tokens that I previously ignored to a large extent. So, following in Phil's footsteps, I have carried the story a little farther,

Back in 1910 Jim worked a a 72 hour week, and with his weekly pay check he was able to go the corner grocery store and buy the following:

He even had a few nickels left over, so it was off to the corner drug store for a soda, or to the nearest saloon for a 5¢ beer or if he could afford it, a couple of ryes:

# WANTED!!

FOREIGN MERCHANTS' TOKENS — British, French, German (including beer tokens), Italian, etc. *No Game Counters or Medals Please*

Have U.S. or Foreign Tokens for Swap, Illinois ¼¢ provisionals, etc. etc.

WILL ALSO BUY!

Send your rubbings or tokens to Bary D. Bender, 752 North 74th Street, Seattle, Washington 98103. I have a lot more tokens that could be added to this list, however, this should get the ball rolling. I will consider all offers for the aforementioned tokens.

I also collect postcards from the above towns. I have a large assortment of better postcards from other states to trade.

WILL HAVE ITEMS TO SWAP AT THE SAN  
JOSE JAMPONEE - - -

# A Survey of American Trade Tokens

An anthology edited by  
David E. Schenkman

This volume, sixth in the series *GLEANINGS FROM THE NUMISMATIST*, contains more than 125 articles covering a broad range of information about trade tokens and store cards. The subject listings include Indian and Post Trader Tokens, Early Store Cards, Trade Checks, Hard Rubber Tokens and Medals, Transportation Tokens, Fraternal Tokens, and Tokens and Medals Relating to Numismatics. Such authorities as F.G. Duffield, Edgar H. Adams, J.J. Curto, Waldo C. Moore, Farran Zerbe, and George and Melvin Fuld are among the many authors whose articles are presented in this 512-page hardbound volume.

A Price Guide by David E. Schenkman for approximately 1300 tokens, a large percentage of which are illustrated in the text, has been added along with his foreword and comments. Although all the articles were previously published over a 66-year period in *The Numismatist*, few collectors have access to the many issues from which they are extracted. Therefore, this comprehensive and organized anthology is a necessity for all token collectors.

Harry McDonald/  
Novelty Place/  
10 Peck St./  
Providence, R.I.

2 1/2

These New England tokens are from the collection of Paul White, METCA #468. He was kind enough to send the rubbings at my request. I am a native of Massachusetts and could not remember having seen any tokens while growing up there. Mr. White mentions that although the Vermont piece is military rather than merchant, it is the only Vermont piece he has seen to date.

Rita Nadreau

# PUGET SOUND STAMP WORKS

## (Seattle, Washington Token Manufacturers)

By Lewis L. Egnew, METCA #210

The Puget Sound Stamp Works was for many years located at the corner of 2nd Avenue and Marion Streets in Seattle. It occupied the area beneath Florsheim Shoe Store, with the entrance on the steep Marion Street side. The work area also extended underneath the sidewalks of 2nd Avenue. Large frames of circular glass lenses set in the sidewalk allowed daylight to enter. Most of the actual token making occurred in this part of the shop, as the drop hammer used for the striking was here. To manufacture a token there are many steps involved, - a long article could be written on the subject. Tokens are not mass-produced as is our U.S. coinage by multiple striking devices, but are struck ONE AT A TIME. Two dies are used, both dies are secured in accurate alignment in a machine known as a drop hammer. The token blanks are hand fed one at a time into a collar supporting the bottom die. The top die is raised and 'dropped' by hand. A tarred rope providing friction and passing over a large pulley was the only help to muscle power. This seemingly crude method of manufacture was used for each and every token in your collection. I see surprise on many faces when they are told of this. Perhaps if interest warrants it, I shall give a detailed account at a future date.

While the dies are not marked, Puget Sound Stamp Works provided most of the Washington State tokens encountered today and many other western states tokens as well, the balance being made by stamp works in Aberdeen and Spokane. These were the big three. There were several others. At one time four different Seattle firms were all making merchants trade checks.

I personally worked for Puget Sound Stamp Works for several years both before and after World War II. Judging from the dies kept on hand for repeat orders, I would estimate that 60%, and possibly as high as 80%, of all Alaska trade tokens were also made by PSSW. There were racks and drawers full of these dies. Some firms kept their own dies and sent them in when ordering a new batch of tokens. These 'reorders' are the reason for the many different reverses found on some tokens struck in quantity. Usually the obverse will be the same, but the denomination side will have varieties due to careless die selection, or indifference, by the person putting out the order. If the denomination was as requested, the firm ordering the token usually had no objection. When the differences appear on the obverse, this usually indicated that the old dies had been misplaced or discarded, and new ones had to be prepared. Sometimes, by request, an old token was copied, but likely as not, a new die was started from scratch.

Continued on next page

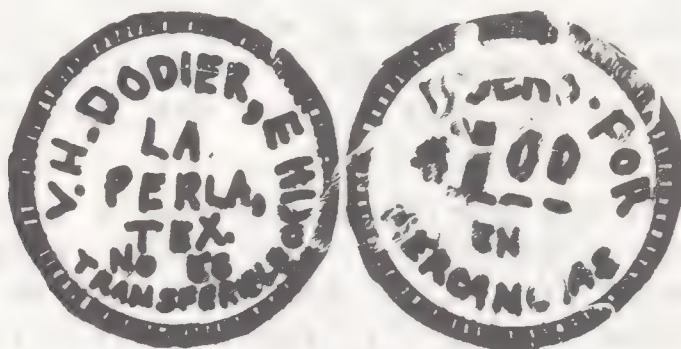

## STAMP WORKS (Continued)

I realize that none of this information is new to the oldtimers in our token collecting fraternity, but it may prove of some interest to the novice starting out. When the new Federal Building was built a few years ago, Puget Sound Stamp Works was forced to move from its longtime location, but is still in business. Tokens are only one facet of their operation, a small part at that. The old dies were sold for scrap with the move. Now retired, I only wish I had been a token collector during those years of 'golden opportunity.' No samples came away with me when I left, however, and there were dies of Alaska merchants whose tokens have yet to be turned up. My coin collecting is all but ended due to the present inflation and resulting high prices, but the pursuit of these elusive, and yes, 'romantic' tokens will continue to the end.

### BORDER LINE TOKENS

By Edward Saunders, METCA #136

This token is one of two different ones from the town of La Perla, Texas.

30 mm Brass

V. H. Dodier, E Hijo/	Bueno. Por/ \$1.00/
La/ Perla,/ Tex./ No	En/ Mercancias
Es/ Transferible	

The man who owns this token and one other very similar piece but for 50¢ grew up in that area of Texas and told me a few interesting things about the tokens. Before we go in to the details of the tokens, I looked up the town in the Texas token supplement in the TAMS journal. It was not listed. So I came to the conclusion that the town was a new Texas town. I knew that there would be some interested Texans wanting to find out this information. I am only sorry to say that I could not get the man to sell even one of the tokens.

Continued on page 66

## BORDER LINE TOKENS (Continued)

La Perla, Texas is just across the Rio Grande and, according to the man, it used to be called La Perla Ranch. It is supposed to be on a high bluff above the river. This is one of the reasons I called this a border line token. The other is because it is written in the Spanish style of writing but is a United States token. The name upon the token is also quite interesting. Not only is it written oddly, but I found it quite interesting when I found out what it actually said. First of all, the man said that the 'V' was for Virginia and the 'H' was for Henry. Dodier with a period or comma (not sure which it is, but I believe it is a period) means no more than just the lady's last name, but with an 'E' behind it, it is changed to a conjunctive meaning 'and', and the next word 'Hijo' is the Spanish word for son. The token is then issued by Virginia Henry Dodier and Son. Women's names are not too often found on tokens, but they do appear now and then. Elko, Nevada seems to be one place where women issued tokens, many of which were red light tokens. I had one from Utah a while back that had the name Virginia Ham upon it, but have no idea what it was issued for.

A little more about the 50¢ token - it too is brass but is only 28 mm. Although the town is not listed in any of my older Atlases (1898, 1901, 1914, and 1936), I did find it in a Texas book made by TAMS. La Perla is 15 miles southeast of Laredo, Texas. I don't know what is there today though. The token owner also told me of another unlisted token he is supposed to have, this one from Dolores, Texas, a town 20 miles northeast of Laredo.

### JOHN J. COURTNEY TOKEN

By Dick Grinolds, METCA #218

John J. Courtney, whose token was illustrated in the December, 1974 issue of TRADE TOKEN TOPICS, owned a bar called the Court Bar, the name of which was no doubt a combination of Courtney's last name and the fact that the address is only a block away from the city courthouse. There is still a Court Bar in Minneapolis, located at 212 S. 7th Street, only a block away from the new city-county courthouse. On the front of the building is an English cavalier and the saying, 'As we journey through life let us live by the way.'

## IN QUEST OF THE MAVERICK

By Kendall Ballard, METCA #14

Every token collector always has in his mind that maybe someday he may be able to attribute one of his many maverick tokens to be from an unknown town or to have great historical value. Recently Duane Feisel did us all a great favor in making available prints from an old directory which we all studied deeply in hopes of finding information that would transfer that maverick token from the junk box to our permanent collection. Sometimes however we run the risk of being overanxious to identify that little metal disc with only a name and become careless or unthorough.

For example, when travelling through the extreme southeastern part of Idaho looking for tokens in the usual places one looks, I stopped in Preston, Idaho and started making the rounds. After looking in several places I came up with a couple of tokens from Soda Springs, Idaho and one Maverick with the word 'Woodwards.' Immediately there was a quest made to identify the token. I asked who might be an old timer around and after locating one, I asked him about the token and showed it to him. He told me the token was from Franklin, Idaho and that a family named 'Woodwards' ran a store there. I was thrilled because no one had ever had a token from Franklin and Franklin being Idaho's oldest town made it that much better. The token was put in my town book and added to my town list and sent to Frank Schell, METCA #35, for listing in his Idaho book.

Many months later when looking through a mail bid sale from California, that very same Woodward's token was listed as Ogden, Utah. I was a little shook up but was sure they had made a mistake. I then promptly forgot about the whole thing and alas! At a junk shop in Salt Lake City, a friend from St. Anthony purchased the very same token attributed to Tremonton, Utah. Another shock but I rationalized that the token could be from Idaho too, since Tremonton and Ogden were within 200 miles from Franklin. Then came the face-reddening climax to the story. Out of Seattle came a beautiful example of the same token attributed to Coeur d'Alene, Idaho. I immediately called Frank Schell and apologised and asked that it be taken from the list of Idaho tokens. I then removed the token from my collection. (Franklin, Idaho is on my want list, now.) Mavericks are fun and exciting, but beware - beware/

# WANTED!!

FOREIGN MERCHANTS' TOKENS — British, French, German (including beer tokens), Italian, etc. *No Game Counters or Medals Please*

Have U.S. or Foreign Tokens for Swap, Illinois  $\frac{1}{4}$ c provisionals, etc. etc.

## MAIL BID SALE

April the 15th left me lacking so I'm offering several good tokens to take up the slack. Several of these are not in the Texas TAMS listing and several that are, are good tokens. Here's your chance to get some good lumber, coal, military and bank and assorted tokens at your price. However, don't be fooled by some of the listed prices. Many of these have never been offered on a bid sale and many have seldom been offered.

1. Arp, Texas-Sessions Lumber and Supply Co.-25¢ and 5¢ both br.

## American Business Tokens

by Benjamin P. Wright

The first volume in the series entitled *Gleanings from The Numismatist*, this standard reference is reprinted from the original serialized articles, which appeared in *The Numismatist* between 1898 and 1901 under the title *The American Store or Business Cards*. Virtually unavailable in complete form until 1963, this book deals with the earliest extensive listing of American Merchants, Transportation, Hard Times, Advertising and Trade tokens. It lists over 1700 items with over 500 line illustrations and represents the point of departure for some specialty areas that started to develop decades later. The Quarterman edition is hard-bound with 232 pages and features a new comprehensive index and foreword as well as a completely updated price guide, which brings interdisciplinary price accuracy to virtually every item listed, with prices varying from a minimum of \$.50 upwards to \$500.00. This reference is mandatory for every collector and dealer in American tokens.

**\$12.00**

QUARTERMAN PUBLICATIONS, INC.  
5 South Union Street  
Lawrence, Massachusetts 01887

# Token Collector's Pages

by  
Melvin and George Fuld

Continuing a series entitled **Gleanings from the Numismatist**, this volume assembles the various articles by the authors that were originally published under the same title in **The Numismatist** between 1948 and 1971. Encompassing a reprint of the 87 different articles, this hardbound reference has a total of 264 pages which are extensively illustrated. A new preface has been added by the authors as has an index to facilitate the location of various tokens. A modern price guide has also been included which places a valuation on the tokens and this will significantly add to this volume's usefulness.

This compilation deals with such important categories as Movie Tokens, Baseball Tokens, Barber Shop Tokens, Oyster Packing Tokens and many other categories. As a survey, this book provides a grand panorama of the variety and scope of this fascinating subspecies of American Numismatics.

**Token Collector's Pages** is an absolute necessity for the collector and dealer in American Tokens and the reference library with special historical interests.

**\$15.00**

### NORTH BEND, OREGON'S MYRTLEWOOD DEPRESSION ISSUE

By Courtesy of Pat Choat

As the depression gripped the country in 1933, currency became scarce. Many communities were forced to use script, but only North Bend (Oregon) made tokens of the beautiful, richly grained myrtlewood which grows only in southern Oregon and northern California.

The city government of North Bend found itself in a financial crisis early in 1933. Just a few days after the old First National Bank of North Bend advertised its resources and liabilities at a balanced \$447,345.26, the bank officials declared a 30-day closing because they found themselves "long on assets that can not be realized on and short on ready cash." Their intentions were to reopen with all accounts at the same figure as at closing. On Feb. 11, the bank ceased operation, and the City of North Bend had no access to their impounded funds. City officials were unable to pay employees and bills.

At a City Council meeting in March, Ordinance No. 653 to authorize the issuance of script was given its mandatory three readings and passed. Mayor Edgar McDaniel ordered the printing of \$1,000 worth of myrtlewood discs in \$.50, \$1.00, \$2.50, \$5.00, and \$10.00 denominations. The tokens were to be redeemable by the city from June 15 to July 15, 1933.

Original plans called for the largest coin to be two inches in diameter and 3/16 inch thick. These are the dimensions of the gold slugs or necessity money issued in California during the gold rush period. The four other sizes were to be scaled down.

CONTINUED ON NEXT PAGE

## DEPRESSION ISSUE (cont'd.)

The first design for the coins was rejected as unsuitable. The only known samples of the experimental printing are on display in the case. George Vaughan, a local artist, recalls being consulted about a more appropriate design, but believes the final graphic work was done by a commercial firm. Mayor McDaniel, also editor of the Coos Bay Harbor (now the North Bend News), was responsible for obtaining the stamping dyes, which incorporated his signature and that of City Treasurer Irwin N. Hartley.

Harold McDaniel, son of the editor-mayor, did the actual printing on a small Chandler-Price press. He speculates that the North Bend Myrtlewood Products Co. (now Bayview Myrtlewood Shop) adjusted the thickness to one-fourth inch when they cut the discs because the thinly sliced circles would easily split under the pressure of the printing plate. McDaniel found it necessary to impress each token individually with the pressure needed varying according to the softness or hardness of the grain. The metal dyes cut into the woods to differing depths. The pressman remembers the task as "a slow and tedious process." To preserve the printing each circle was shellaced.

An article in the March 10 Coos Bay Harbor carried the news that the money would be issued and guaranteed under a surety bond held by Treasurer Hartley. A week later the newspaper announced: "The money will go into circulation at once in payment of salaries of employes of the city. They in turn will pass it out to merchants for merchandise or purchases of whatsoever nature, and the merchant will pass it out to his employees and others...Those who receive the money through their regular channels of business should make an effort to keep the money in circulation, instead of storing some away. In this manner, the fullest possible benefit may be obtained."

A brisk demand for the mintage by souvenir hunters and coin collectors developed. Mrs. Etta Black, assistant postmaster, was the first to receive any coins and W.H. Wann, a public accountant, was the first to purchase a five piece set. North Bend business promoted newspaper advertisements encouraging use of the money. Responding to the suggestion of Mr. Wann, the City Council at its April 11 meeting voted to authorize a second \$1,000 issue that would be "backed in cash not available for budget purposes." Redemption date was set for Dec. 1, 1933. Face values were altered so that the \$2.50 was dropped and a \$.25 added.

Interest in the novel money ran high. The Chase National Bank of New York put a full first issue on permanent display in their collection building. Even when the banking crisis and depression were over, citizens preferred to keep the unique coins. Original plans had called for the discs to be destroyed when no longer needed. Until recent years, the myrtlewood discs would occasionally be cashed in by the city and then placed on sale at face value. It is now impossible to secure a coin in this manner as people no longer turn them in. A nearly complete set is on display in the City Hall lobby. Missing is the first issue \$10.00 piece. That same coin keeps this case from completeness. Roger Duncan, a former mayor, also lacks that \$10.00. Harold McDaniel's six-piece set probably holds a first issue \$10.00. Two full ten-coin sets, originally owned by Leo Robertson, were left in his estate. These may be the only complete collections. Miscellaneous denominations are on public view at the Coos-Curry Historical Museum in North Bend's Simpson Park.

June, 1973

## THE SALT LAKE STAMP COMPANY

By Joe J. Davich, METCA #226

I would like to add a few of my findings regarding the Utah token maker mentioned in Mr. Edward Saunders' article in the February, 1975 issue of 'TRADE TOKEN TOPICS'. It is my understanding that the Salt Lake Stamp Company went into business in the year 1897. The Mormon Temple was indeed a standard stock die of this firm. I do feel, however, that there must have been a stamping company before 1897, or else the merchants might have ordered their particular tokens from the traveling salesman of a stamping company from some other area. In my Park City, Utah collection there are tokens dating back to the early 1880's, depicting the 'Beehive' and also the Mormon Temple. Many collectors might wonder why the Mormon Temple appeared on the early tokens. The Mormon pioneers arrived in the Salt Lake valley in 1847. They began building the Temple here in Salt Lake on April 6, 1853 and completed it forty years later on April 6, 1893. During those years of construction, tokens depicting the Temple made their appearance. In my years of collecting, I have seen many 'Temple' tokens from various firms but a saloon token depicting the Temple is a rarity. The Glenwood Co-op (shown in the rubbing) is listed as far back as 1884 and I was told that at one time this firm was under The Latter Day Saints' United Order Plan. Such tokens had been used in the 1880's by independent parties other than the L.D.S. Church.

The rubbing from Mohrland, Utah shows the wording 'S. L/ Stamp/ Co.' under the word 'Utah' on the token. The token from The Club, Park City, Utah, shown in the rubbing, also has the S.L./Stamp/Co. imprint under the words, 'The Club.' I have always had the impression that whenever this token maker placed his imprint on the token, some discount must have been allowed to the merchant ordering the token inasmuch as this was a means of advertising for the stamping company.

The Park City token bearing the name of the Gold Label Liquor Company is most unusual as it would indicate that a shot of whiskey was selling at 15¢.

## TRADING LIST

Trading List of METCA # 3 - Bary D. Bender

I collect merchant tokens from the towns of Dayton, Waitsburg, Starbuck, Prescott, Pomeroy, and Asotin, in the state of Washington. Some of the merchants I need different denominations and die varieties from are: Alum. values of P.S. Burdette; Alum. values of Dayton Mercantile Co.; Alum. values of Boone Supply Co.; Alum. values of Gerken Cash Grocery; Brass values and varieties of Edwards Hindle Co.; Brass values of Waitsburg Mercantile Co.; and many others from the aforementioned towns.

I will consider tokens from Walla Walla over the rest of the state; however, I am interested in tokens from Washington, Oregon, Idaho, and Montana. Please feel free to rub or describe any token from the four states. Remember tokens from my area receive the highest consideration for a trade. I have more tokens to trade than can appear on this list. Re-examine my list of April 1st.

MERCHANT TOKEN

COLLECTORS ASSOCIATION

FROM THE COLLECTION OF  
TOM WALL, METCA 37

## TRADE TOKEN TOPICS

Published and mailed on the first of each month to all members of METCA (Merchant Token Collectors Association.) Dues, \$5.00 per calendar year. Every METCA member is entitled to a free four line ad in each issue provided it is different each time. Display advertising rates: (Per issue) full page, \$10.00; half page, \$6.00; quarter page, \$3.00, with a 20% discount for ads placed for 3 issues or more. Prices quoted are for a maximum of 100 words; add 5¢ per word on copy exceeding 100 words. For mail bid sales, send clear typewritten copy. Deadline for all copy is the 20th of each month preceding issue. Make all checks and money orders payable to Merchant Token Collectors Association. Mail address: P.O. Box 176 Richmond Beach, Washington, 98160. The publisher does not accept responsibility for any correspondence mailed to any address other than this one.

Ray and Rita Nadreau, Publisher

### PUBLISHERS' NOTES

Mr. Joe Stubebaker, METCA #327, of Beaufort, S.C. would like to notify any METCA members waiting to hear from him that his mail was either stolen or misplaced about the end of May. If any member has sent him a buy, trade or sell and not heard from him, please let him know.

SEVERAL PEOPLE HAVE ASKED ME ABOUT YEARBOOKS AND HAVE ORDERED THEM... TO BE HONEST, I MUST SAY THAT TIME HAS PASSED ME BY VERY FAST THIS YEAR AND I HAVE NOT PUT ANY TOGETHER YET.. I WILL NOTIFY MEMBERS WHEN I HAVE BOUND YEARBOOKS AGAIN... WILL TRY TO DO IT SOON... THANKS FOR WAITING

RAY  
NADREAU

# CALIFORNIA TOKENS

By Edward Saunders, METCA #136

The token with a bear pictured on it is a very nice addition to anyone's collection. The typical California bear is on the obverse with the unusual wording for 25¢, that is 'Two Bits.' It is from a Country Club in Vernon, California. On the reverse the token says, 'One Buck' and 'Days of '49.' This is probably considered a souvenir dollar, but if cashed in was worth two bits. The picture is of a man smoking and on his hat band, 'Vernon' is spelled out. This is also seen on the bear on the obverse. Under the bear beneath the grass is the signature of the L.A. Rub. Stamp Co.

The other token pictures a famous hotel in Paso Robles, California. The hotel is no longer there but it was visited by people of nobility and was an elaborate place as indicated by the token. It was most likely used in the hotel bar. Hotels usually called their dining and drinking places bars rather than saloons. Saloons were more associated with gambling and girl shows, although this is not always the case. Notice how fancy the token is on both sides; these are the pieces that make one's collection unique.

pictured)

CONTINUED ON NEXT PAGE

## CALIFORNIA TOKENS (cont'd.)

PASO ROBLES HOTEL

GOOD FOR/  
ONE/DRINK

One of the most notable characters to visit Paso Robles is the well-known Jesse James. In June of 1869 Jesse and his brother Frank took two different ways to Paso Robles, Jesse by boat and Frank by land. They were the guests of their uncle, D. W. James, at the Paso Robles, Hot Sulphur Springs, Hotel. Their uncle was running the business at this time. It is possible that this is the same hotel and that the James boys lodged in these rooms. More information about the James boys' California visit can be found in a book entitled 'The Border Bandits,' which is an authentic history of these infamous outlaws. The copy I have is very old and probably a very early paperback.

### SALOON MAVERICK

By Stanley Buckley, METCA #220

Perhaps one of our METCA readers can identify this strange saloon maverick. Struck in aluminum, it seems to have been issued for use in two different places. Possibly both were in the same building or may have at least been owned by the same person. I have had no luck in placing it but perhaps someone else can do so.

## FARMERS MERCANTILE COMPANY

By Larry Bender, METCA # 146

A rubbing of a Farmers Mercantile token is shown below. The token was passed on to my son, Russell, and I thought some of the METCA members may be interested in seeing a rubbing of it.

FARMERS MERC./CO./  
GENERAL/MERCHANDISE/  
ELK CREEK,/NEBR.

GOOD FOR/  
1/SACK FLOUR

The Farmers Mercantile used tokens from 5¢ through \$5.00. Including varieties there are 16 different plus the 1 sack of flour token. The following information on the Farmers Mercantile was received from Guy Eversole, METCA #408, of Elk Creek, Nebraska: Mr. George Buerstetta owned the store in the 1890's. After his death about 1900, his widow sold the store to a Mr. Haley. His sister later took over the store and had a Mr. John Bruhn run it for her. The father of Guy Eversole and Bruhn formed a corporation of the store. They called it Farmers Mercantile. The tokens were used from 1908 to about 1930.

# **TOKENS TREASURY . . .**

*Plus Plenty Of Pleasure For Your Entire Family*

Theme Building at L.A. International Airport, only mile from hotel. (Free 24-hour transfers.)

Great ship for our Grand Tour. Special tokens for charter bus to Long Beach.

This gathering, with **TOKEN COLLECTORS** from all parts of the United States and Canada will be on Friday, Saturday and Sunday, August 15-17, 1975. Convention hotel is the Ramada Inn/Airport, 9620 Airport Blvd., Los Angeles 90009. Reasonable rates here with plenty of free parking. (Also it is just one block to headquarters hotel for the 84th A.N.A. convention a few days later.) Our Life Member #1, Roland C. Atwood, and charter president Max M. Schwartz, will both be on hand to greet all Vecturists. Your hosts for this conclave, the California Association of Token Collectors, really want YOU to be here with us too.

Remember: An encore session will be held Friday morning, August 22, during the A.N.A. meeting. We will be proud to present Curly Mitchell and Ken Smith in an excellent new program about George Francis Train, famous early American and British transportation engineer and builder.

Admission to this fine added event is just one more part of your A.V.A. registration.

Whatever kinds of Tokens you collect-- U.S. transportation, foreign, parking, car wash, trade checks or ??? -- you will not find a better chance than at this meeting to buy, sell or swap.

**DON'T YOU MISS IT!**

**Registration for the 25th Annual Convention of A.V.A. includes:**

- \* Convention badge and ribbon
- \* All sessions at Ramada Inn/Airport
- \* Annual banquet and entertainment
- \* Token auction, with many lots
- \* Handsome A.V.A. advertising mirror by EM Creations

## THE 4 L LUMBER CAMPS

By Edward Saunders, METCA #136

A while back I spent a day in the area of Marcola and Wendling, Oregon, asking questions about some of the area's businesses of the past. One of these was the 4 L Lumber Halls that issued tokens in at least three different camp locations. The only token connecting the other two to the area is the Camp 40 piece which says 'Wendling, Oregon' on it. I have seen a few of the Camp 34 pieces around and have the only Camp 35 piece to my knowledge. I do not have a Camp 34 piece in my collection and therefore I do not know the exact layout of the token, nor do I know the denomination.

I talked to several of the old timers of the area and learned that there were 40 Camps to the east of Wendling and 6 Camps west of the area. There is no town of Wendling today but the area is owned by the Georgia-Pacific Corporation. I believe this was the information given to me by a man who works for the company. He also told me that there was no access to the area of the camps except during deer season. The road is closed off the rest of the year. I was also shown a token, or piece of scrip, used by the company that issued all of the tokens. The scrip was the only form of tokens used in Wendling.

CONTINUED NEXT PAGE

#### 4 L LUMBER CAMPS (Continued)

The Booth-Kelly Lumber Company sold out its interests a few years ago around 1959 or 1960. They operated the camps in the early 1900's and into the 1920's. I believe I was told that the mill was destroyed by fire and never rebuilt. One old timer told me that the scrip was used around 1910 and that it was sold in booklets of \$1, \$2, \$5, \$10 and \$20. I saw only the one denomination as shown in the drawing. The scrip came in denominations of 5¢, 10¢, 25¢, 50¢ and \$1.00 and each book contained different amounts of them. The coupons were not good if detached from the booklet. They were issued as an advance toward one's monthly pay, usually on the second week of the pay period. The amount of the booklet was then deducted from the pay check at the end of the pay period.

As for the metal tokens, all of them are made of aluminum. The Camp 35 piece that I have was unearthed by a bottle digger in the area of Wendling. It had long been a token of question to my mind. It is not as much of a mystery now but I would sure like to know the exact area the token was used. It is one of those areas that is identified only by the Camp No., such as the Camp 14 tokens of Washington. Camp 35 is not Wendling so therefore is a new area and must be considered a new locality as should the Camp 34 and Camp 40 pieces. Since there are no other tokens from Wendling that have the town name on them, it is still a Wendling piece by right. The token does have the town name of Wendling on it. Maybe with a little more research we will be able to determine the true locations of all of the 4 L Camps. Who knows, there may even be others around in some of your maverick token collection boxes.

CONTINUED NEXT PAGE

#### 4 L LUMBER CAMPS (Continued)

What happened to Camps 1 through 33 on the east side of the mountain or the six on the west side? The McCloud River Railroad and Lumber Mill in northern California had several Camps in its empire, yet only McCloud, Pondosa, Camp One and White Horse have ever turned up. Whatever happened to the others? Did they have tokens and if so, are there any left? Lumber camps and towns are prone to fires. A good example is Klamathon in northern California which had several fires and was completely burned out in 1902.

And lastly, the only other 4 L tokens that I know of are from Westport and they say 'L L L L CLUB.' I am sure these are of the same union as those of the Wendling area. They come in a set and are octal aluminum. I have seen quite a few of the brass lodge badges with two men sawing a tree and 4 big L's upon them, but there doesn't seem to be very many tokens. This might be because most of the lumber mills issued tokens in their own names not using the union affiliation. I am sure there were more 4 L Camps but perhaps they go by camp name, such as Hammond Camp or Foss Camp on the coast. No matter what the answers are it is likely that there are many such interesting stories to be told. Why not give it a try and let us know what one of your Saturdays brings your way?

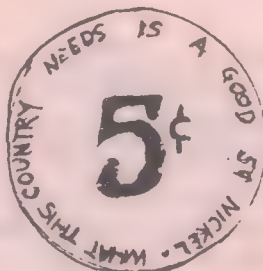

## GLASS TOKENS

By Phil Klabel, METCA #396

Going through a 1970 issue of 'Insulators-Crown Jewels of the Wire,' an insulator collectors magazine, I saw an article on glass tokens that were given to contributors of articles for that magazine. Wanting to acquire one for my collection, I wrote to the maker of them, Darrell Petcoff of Hamilton, Montana, but my letter went unanswered. I then wrote to the editor of the magazine, Dora Harned of Chico, California. After much searching she found and sent me one, adding that Mr. Petcoff was deceased.

The token is approximately 30 mm and of red glass; obv. INSULATOR/1970/COLLECTING. In the center is embossed a Mickey Mouse type insulator. Rev. WHAT THIS COUNTRY NEEDS IS A GOOD 5¢ NICKEL/5¢. A sketch of the glass token is shown below. The tokens were made from glass marbles in various colors. The magazine article mentioned that the old glass houses sometimes paid their help in glass scrip which was negotiable at the Company Store.

Do any of our members have some of this glass scrip and can they tell us something about it?

# FOR TRADE FOR WASHINGTON STATE TOKENS

1. Columbus, Miss. - Columbus Bakery/ G/F One 5¢ Loaf of Bread, rd. alum.

# TRADE TOKEN TOPICS

MONTHLY PUBLICATION FOR TRADE TOKEN COLLECTORS

MERCHANT TOKEN

COLLECTORS ASSOCIATION

## SPECIAL NOTICE

It is with mixed personal feelings that we are making this announcement. Due to pressing personal problems (pleasant but pressing) we find it necessary to discontinue for at least a year the publication of TRADE TOKEN TOPICS. We will print the remaining three issues of TRADE TOKEN TOPICS for October, November and December, 1975 and will not print the newsletter during 1976.

For five years we have met the first of the month deadline, missing it once or twice by 48 hours. We will not ask members to subscribe to a year of uncertain monthly issues. We have made the decision to take a year's hiatus, attend to the personal affairs noted above, clean up our METCA files, assemble Year Books which are in various phases of production and rebuild or overhaul the printing equipment that we use for the publication.

We firmly believe that merchant token collecting can survive and grow without 12 issues of 1976 TRADE TOKEN TOPICS. We would strongly urge those who would renew their subscription to METCA in 1976 to subscribe to the Token and Medal Society (TAMS) Journal. The TAMS Journal features trade token articles with each issue. We think that with a little backing by all types of token collectors, the TAMS Journal would be the best medium in the country by which to enhance your collection. We have been members of TAMS for several years, not as collectors, but as admirers of beautiful token pictures, articles and advertising layouts in the Journal.

### LESLIE HILLIGOSS' TOKEN EXHIBIT

Leslie writes us that he got the idea of making up a token exhibit after reading Eugene Morris' letter in the April, 1975 issue of TRADE TOKEN TOPICS. The exhibit was in the form of a story much the same as that of Phil Klable's story in the February, 1975 issue of TRADE TOKEN TOPICS. Leslie entered his story display in the South Dakota State show held in Watertown, South Dakota and walked off with THIRD PLACE. He was put in a class with Gold Coins. He said, 'I thought I did O.K. with my two bit exhibit competing with gold exhibits worth several thousand dollars taking first and second places.

(See display layout on next page.)

## MORE INFORMATION ON THE 4 L LUMBER TOKENS

By Lewis L. Egnew, METCA #210

Here is a bit more information regarding the 4 L tokens described in Ed Saunders' article in the August, 1975 issue of TRADE TOKEN TOPICS.

The '4 L' was the 'Loyal Legion of Loggers and Lumbermen' and was a branch of the U.S. Government-Spruce Division of the Army. During World War I the demand for spruce for military airplane construction was critical, so civilian loggers and service men who had some experience in the woods or mills were drafted into the Spruce Division. The camps were wherever spruce could be found and logged fast. There were several on the Olympic Peninsula in Washington as well as those in Oregon, possibly other areas as well. The period of time was only the duration of World War I, as after the war new and better materials were found to replace spruce.

Most camps in Washington had no tokens. Some were known by number only, others by camp names. In all probability there are tokens from these camps lying in collections unknown. The large brass badge (described by Mr. Saunders) was Government issue, not just a lodge affair, and was issued to all participants of all ranks. I have tokens bearing only

L

L L (four L's) with no location or camp number on them,

L

presumably for use at more than one location? Most of this information has been written up and published before. Perhaps the source of more detailed information would be the National Archives where military records are stored.

The Port Ludlow Mill in Washington was one of the prime furnishers of finished spruce and had priority on larger size logs due to having the largest saws at the time. There were 75 men on the Ludlow Spruce crew at the mill. The total number in the woods camps is unknown.

My personal feeling is that the 'LLLL Club' tokens are organization tokens of those former Spruce Division members, just as V.F.W. and American Legion clubs exist today. I hope this has added a bit to Ed Saunders' fine article.

We received this interesting request in the mail recently.

L. ERIK VAN CORT

Merchant Token Collectors Association  
Post Office Box 176  
Richmond Beach, Wa. 98160

Gentlemen:

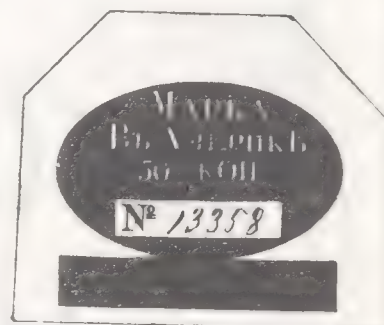

Pictured below are three specimens of the Russian-American Fur  
Company money; Alaskan Sealskin Notes:

10 KOPECKS

25 KOPECKS

50 KOPECKS

(notes shown  $\frac{3}{4}$  size)

The Russian-American Company issued these notes in eight denominations-25, 20, 10, 5, and 1 roubles and 50, 25, and 10 kopecks. This money was issued between the years 1809 and 1836. The notes were printed on heavy cardboard or walrus or sealskin.

I am a collector looking for more of these notes. If you have any or know of where I might obtain more examples, please contact me.

Thank you and I look forward to hearing from you in the future.

Sincerely,

*L. Erik Van Cort*

## COLLEGE TUITION TOKEN

Mr. Paul White, METCA #468, of Fayville, Massachusetts sent us a rubbing of a college tuition token, shown below. He also enclosed the letter from the librarian of Eastern Nazarene College that issued the token.

## THE MINT

Mr. Charles Robinson, METCA #82, Box 127, Austin, Minnesota 55912, sent us the following note with the rubbing shown below:

'Can anyone tell me in what city this was issued, and for what purpose? It apparently concerns the Milwaukee Railroad. Made by Green Duck Chicago, Was The Mint a bar or saloon?'

# EASTERN NAZARENE COLLEGE

Wollaston Park, Quincy, Massachusetts 02170

Department of History

August 8, 1975

Mr. Paul White  
Box 185  
Fayville, Mass. 01745

Dear Mr. White:

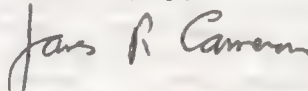

You called to inquire about the tuition token which was issued by Eastern Nazarene College. After speaking with you I remembered that I have had one of the tokens for about twenty years.

My recollections are that it was issued by Stephen W. Nease when he was director of development. I spoke with the person who was his secretary during the fifties but she had only a general memory of the token and could not supply a date. I next consulted the admissions officer and he recalled that the tokens were in circulation when he took his position in 1957. I next consulted with the college bookkeeper who did not know when the tokens were issued but did recall that hundreds of tokens were redeemed over a three year period.

My best judgment is that the tokens were issued after Mr. Nease became director of development in 1953 and the time that Mr. J. R. Naylor became admissions officer in 1957. Edward S. Mann was president of the college at that time and the idea may have been his but I would suspect that it was Mr. Nease's. You might try writing to President Stephen W. Nease, Bethany Nazarene College, Bethany, Oklahoma 73008.

The college sent gospel quartets, composed of students to all of the Nazarene Churches on our educational zone - north of Virginia and east of Ohio - for general public relations but specifically to raise money and to recruit students. The tokens were distributed by these quartets. I have checked the literature of the college but can find no mention of the tokens.

Yours truly,

James R. Cameron  
historian

## IN THE GOOD OLD DAYS

By Ed Saunders, METCA #136

It has been sometime since one could buy a 5¢ loaf of bread. The bread token has always been one of my side collections. It proves to be one of a great variety. Out of 150 or so bakery tokens I picked out these tokens that said they were for a nickel loaf of bread. I had others that said 10¢ loaves, one loaf or two loaves. The ones shown here are those of the 5¢ loaf variety. Now let's take a look at the various reverses one can find in this one field of collecting alone.

The first two lines of rubbings are from tokens used in California and Oregon. The two fancy ones on line two are from Corning, Ca. The third is an Oakland bakery. Note that all of the tokens have different reverses. I found only a couple that had the same reverses. Two were of the first rubbing on line one from the same bakery. The other is of number one on line three. I had a maverick from Seattle, Wa. and one from Dunn's Bakery from Eugene, Ore. otherwise they were all different. Bakery tokens can be found from east to west, some of these are from California, Oregon, Washington, others are from Kansas, Illinois, Ohio. The oval is from a token that says 'W.W.Bosserman' from Bradford, Ohio. The towns that had bakery tokens are numerous. Canada had many different types and those too prove to add to one's collection.

## IN THE GOOD OLD DAYS (cont'd.)

Inflation has changed many things, but the fast moving autos of 1910 made a great change in the age. People no longer bought bread by purchasing a dozen tokens and receiving one free, or maybe by buying 6 loaves and getting the seventh free. Just as the old mares in the barn are seldom seen, the other relics that made the age unique have also disappeared from the scene. They have either been discarded or destroyed. The tokens of this era make the memories of the time a little more real. Some of us have never seen a 5¢ loaf of bread and some of us can barely remember the 15¢ loaf. It wasn't too long ago that we could get bread for 5 loaves for a dollar. It won't be too long in the future before we will be paying a dollar and perhaps more. But it is always nice to look back and see how it was way back in the Good Old Days. Far too often we forget how hard our parents labored just to put bread on our tables. We forget the hours of toil around the hot pot bellies; we forget the times when the radio was the big entertainment item in our homes. We forget the all-day wash day, the lower wages, dim lights and narrow, bumpy roads

Today are the good days that our kids will remember. They will hear us talk about the two for a penny candy or the 5¢ ice cream cones. Yes, those were the good old days when we could take a quarter and have enough candy for all of our friends.

We are living in the Good Old Days now; we can collect things because we have a little spare money to spend on hobbies or other things of interest. Appreciate them now and when they are recalled, they will have been the best days of your lives, - truly the Good Old Days.

We can be sure the Good Old Days are gone when one could buy a loaf of bread for a nickel, or a hamburger for a nickel. But so are the days when one made a dollar a day and was glad to get that.

# U.S. CIVIL WAR STORE CARDS

Second Edition

*George and Melvin Fuld*

The issuance of a Second Edition of George and Melvin Fuld's *U.S. Civil War Store Cards* only three years after the first edition appeared attests to the significance of the work and the growing number of specialists in the field. Civil War Tokens were issued by the millions almost exclusively in the northern states during the war years of 1860-1865. Of the two types (Patriotic and Store Cards), the Store Cards that are the subject of this volume were issued by individual merchants in a great number of cities and towns primarily to make change for their customers as regular U.S. coinage disappeared from circulation for these years. This edition includes everything in the first edition plus a great number of corrections and additions which have been published in periodicals since 1972. Additionally, new discoveries tabulated by Jon Harris from the collection of the American Numismatic Society have been reprinted at the end of the volume from a pamphlet recently published by the Civil War Token Society. A new foreword introducing the edition has been added by the publisher and the valuation table has been updated by the authors.

This hardbound, 704-page Second Edition is a necessity for all of those who still lack the original edition, now out of print. Quarterman's edition has been significantly reduced in size from the original 8-1/2 x 11" to a handy 6 x 8-1/2" size — the process also reduces the type to a small size not suitable for those with limited eyesight ability. This book contains thousands of illustrations and is the definitive work on the subject.

COVER MATERIAL SUBMITTED BY PHIL KLABEL, METCA 396

# California-Nevada Token Society

invites the members of METCA to join the largest token collectors' association serving the Western states in 1976.

At our fifth anniversary meeting, 15 November 1975, we voted to expand the scope of the Society to include all eleven Western states, provided that enough new members can be recruited from the nine states not presently represented: Arizona, New Mexico, Colorado, Utah, Wyoming, Montana, Idaho, Washington, and Oregon.

Our new aim is to extend the services we have been providing to our California and Nevada token collectors to the additional states. These services include:

- \*\*\* The best newsletter (Cal-Neva Token Ledger) for token collectors in the USA. Published bi-monthly, many articles, news items, ads, etc.
- \*\*\* A free four-line ad for every member in every issue (every two months!).  
(Paid, larger ads available too, cheap)
- \*\*\* Free annual membership token.
- \*\*\* Occasional meetings, arranged by local 'chapters', plus the anniversary meetings in Stockton every November (and you've never seen wheelin' and dealin' like our Stockton meetings!). You collectors in other states can organize local meetings, report them to our editor and we will write them up in the Ledger.
- \*\*\* A special camera members can borrow to photograph tokens (members pay only cost of film they actually use).

And lots, lots, more.

## ANNUAL DUES: \$4.00

WE ASK EVERYONE INTERESTED IN JOINING TO WRITE FOR INFORMATION, OR JUST SEND YOUR FOUR DOLLARS DUES FOR 1976 TO THE SECRETARY-TREASURER:

Hal V. Dunn  
P.O. Box 114  
Carson City NV 89701

GET YOUR DUES IN BY THE END OF FEBRUARY, AND YOU WILL BE LISTED IN THE NEW 1976 MEMBERSHIP DIRECTORY!!!!

NOTE: We also voted to consider changing the name of the Society to the Western States Token Society, beginning 1 January 1977, if we get a good response, and if METCA is not revived in 1977.

And if you don't collect Western tokens, or if you don't live in the eleven Western states, you are of course still invited to join. We now have about 90 members, and are hoping to expand to 125, 150, 175, ?????

## = STATE SALUTES TO AMERICAN REVOLUTION BICENTENNIAL =

A SPECIAL REVERSE DIE IS AVAILABLE FOR YOUR USE AS ONE SIDE OF A MEDAL OR TOKEN; THE DIE IS FOR 1-1/2" DIAMETER PIECES, THE APPROXIMATE SIZE OF A SILVER DOLLAR. SINCE THERE IS NO EXTRA CHARGE FOR THE USE OF THIS DIE, YOU WILL HAVE NO DIE MAKE-READY CHARGE IF YOUR CHOICE FOR THE OTHER SIDE IS WORDING ONLY. HOWEVER, IF YOU WANT A SPECIAL DESIGN FOR YOUR SIDE, THE DIE MAKE-READY CHARGE MAY RANGE FROM ABOUT \$75 TO \$200 DEPENDING ON COMPLEXITY.

### Striking Cost

Metal	Gauge	LOT PRICE				
		250	500	1000	5000	10,000
Aluminum	Standard*	\$64.15	\$81.10	\$119.35	\$487.75	\$945.50
	Heavy**	77.00	97.35	143.25	585.30	1134.60
Brass	Standard	73.45	115.00	177.30	748.00	1466.00
	Heavy	88.15	138.00	212.75	897.60	1759.20

# WYOMING

I'M ALWAYS AFTER WYOMING TOKENS, MEDALS,  
SCRIPT AND WOODEN MONEY.

WHEN YOU RUN ACROSS SUCH ITEMS, KEEP ME  
IN MIND.....

ALSO WANTED ARE WYOMING CHECKS, NATIONAL  
CURRENCY, LAW ENFORCEMENT BADGES, BOOKS,  
DOCUMENTS OR POSTAL ITEMS (IN OTHER WORDS  
ALMOST ANYTHING ON OR ABOUT WYOMING).

ONE OTHER ITEM I'M AFTER IS TOKENS FROM  
TOWNS NAMED WYOMING IN ANY STATE.

PLEASE KEEP ME IN MIND ON ANY OF THESE  
ITEMS AS I'M ALWAYS INTERESTED IN THEM.

IF YOU DON'T WANT TO SELL OR TRADE, I'D  
APPRECIATE LISTINGS OR PHOTOS OF WYOMING  
EXONUMIA FOR CATALOGING.

BEST WISHES FOR A MERRY CHRISTMAS AND A  
HAPPY BICENTENNIAL YEAR.....

WRITE - William Ruddick, P.O. Box 82, Fallon, Nevada 89406

FELLOW MEMBERS, THANK YOU FOR THE RESPONSE TO MY DISPLAY AD ON THE MONTANA CATALOG WHICH I RAN PREVIOUSLY IN THE FEB. 1975 ISSUE ONLY. COMPLETION DATE IS SCHEDULED FOR THIS COMMING SPRING. THE BOOK WILL CONTAIN MANY PHOTOGRAPHS AS WELL AS HISTORIES AND ANECDOTES ACCOMPANYING THE LISTINGS. WHAT WITH PROMISING BOOKS TO MANY NON-COLLECTORS IN MONTANA AND LIMITING THE NUMBER PUBLISHED, THIS WILL BE THE LAST MENTION OF ITS AVAILABILITY TO MEMBERS OF METCA. THE 86 MEMBERS WHO ANSWERED MY PREVIOUS AD CAN CONSIDER THEIR COPY RESERVED AND WILL BE CONTACTED LATER. IF YOU WISH A COPY RESERVED, PLEASE LET ME KNOW SOON. LET'S HOPE METCA RESUMES IN '77'

GEORGE GOULD - BOX 9652 - SEATTLE, WA 98109

## MONTANA

THE MONTANA TOKEN CATALOG IS IN ITS FINAL STAGES. IT WILL BE A LIMITED EDITION. METCA MEMBERS WILL HAVE A SERIALIZED COPY CORRESPONDING TO THEIR METCA MEMBERSHIP NUMBER. ADVANCE ORDERS WILL NOW BE ACCEPTED. PRICE HAS NOT BEEN ESTABLISHED BUT WILL BE IN THE \$6.00 TO \$8.00 RANGE. DROP ME A POSTCARD IF YOU ARE INTERESTED IN A COPY. NO OBLIGATION. PLEASE NOTE MY NEW ADDRESS!

George Gould - P.O.B. 9652 - Seattle, WA 98109
